Taxpayers meeting

The Taxpayers Association of Upland will hold a special meeting Tuesday, October 27, at 7:30 p.m. at the Upland Public Library, Euclid Ave. and D Street. The public is invited to personally meet John H. Rodriquez, new Superintendent of the Upland School District.

Those attending will have an opportunity to present questions (in written form) after Mr. Rodriquez speaks. He will answer all questions, except those regarding Personnel. For further information call 985-1013.

Hear Agnew Oct. 30

Buses will leave from Upland at 6 p.m. Friday, Oct. 30, to hear, in person, Vice President Spiro Agnew talk in Anaheim.

Information regarding tickets, $3 for round trip and entrance fee, may be obtained from Mrs. Beatrice S. Riggs at 986-8049. Mrs. Riggs is woman's campaign chairman for Senator Murphy in San Bernardino County.

Orum's contract 'valid'

Vern H. Orum's one-year contract with the Upland School District in the capacity of consultant has been ruled "valid and binding" by the San Bernardino County Counsel's office.

Last week school board trustee Barry Brandt, an attorney, and William S. Rugg, board president, told the board that they had met at length with Craig S. Jordan, deputy county counsel, to discuss the contract. They were told, they said, that the contract was binding.

Orum was terminated by the board earlier this year with two years remaining of his contract as district superintendent. The board renegotiated the contract with Orum, employing him as a consultant to study school unification for a year at a salary of $24,654.

Orum has entered employment with the Barstow Unified School District as assistant superintendent for business while his former contract is still in force.

Mediation sought

The Upland School District Board of Trustees will seek the assistance of the California Conciliation Board in reconciling its differences with the Negotiating Council of the Upland Educators Association.

The board last week authorized district representatives to contact the Conciliation Board and request the services of a mediator.

John H. Rodriguez, superintendent of the district, recommended the procedure as did Frank Migaiolo and Ray Klooz who represent the educators.

Migaiolo noted that the service, available to the district at no cost, "is the only logical way to resolve our differences."

Negotiations between teachers and the board had come to a halt earlier over whether or not trustees were subject to binding arbitration in a formal grievance procedure involving the board.

Planners meet tonight

Regular meeting of the Upland Planning Commission will take place Thursday, Oct. 22 at 7:30 p.m. in the council chambers.

Burn Center benefited

More than 1500 turned out to see the City Slickers versus Country Bumpkins on donkeyback Sunday, and to benefit the proposed West End Burn Center.

Sponsored by area firemen, headed by the Cucamonga Fire Department, the event was held on the Upland Memorial Park diamond. Aboard the bouncing beasties were firemen from Cucamonga, Alta Loma, Upland and Ontario.

Prior to the Donkey baseball game the firemen and the donkeys played "pop the balloons" and "put your little foot" in tire rings, much to the hilarity of the crowd.

Rick Arnold, Hollywood stuntman, put his horses through their paces and Robert Fuller, star of "Laramie" and "Wagon Train" battled airline schedules and freeways to be on hand and sign autographs for the children.

Oh, what was the baseball game score? 7-7. A gentlemenly tie.

Chamber maps new year

The Upland Chamber of Commerce launched its fall membership drive last week with a duet of meetings aimed at increasing enthusiasm within and for the Chamber.

The Fireball 12, a dozen active Chamber backers, gathered Wednesday at the Arbor Restaurant and received names of potential members on whom to call that day.

The Chamber will seek employers willing to give the disadvantaged a try, and set up a pool of employees available for jobs. The Chamber will handle the paperwork, the industry will provide the training, and the Federal government will pay the costs of all extra services (psychological aid, grooming) and a large share of trainee costs.

The goal of the effort is to provide employers with the employees they need, and provide job seekers with "meaningful jobs" so they can learn a trade or profession.

Working on the program, along with membership and other duties, will be Larry Lawson, new assistant Chamber manager, who was introduced to members this week.

A native of Upland, currently residing in Pomona, Lawson is working toward a degree in sales and marketing at Cal Poly. He is very active in youth and civic affairs in Pomona.

Another new face at the Chamber office is Miss Christin Reeder of Ontario, replacing Katie Marsh as secretary.

Tony Malone, manager for the chamber office since April, 1965, has received his degree from a Business Institute at Santa Clara in Principal in Organization Management. He has attended the institute for three years. It is sponsored by the National Chamber of Commerce.

Prior to joining the chamber, he was president of the Jaycees and named Man of the Year in 1965 by that organization. Under his leadership, the Chamber has developed a five year plan which has been implemented in the community, leading to better relationships between the city and businesses.

During the coming year, the Chamber has set these goals:

--Economic development, with the Chamber extending every effort to obtain industrial, commercial and professional developments. They will also strive to "constructively implement the city general plan, aiding existing Upland business wherever possible to assure a healthy, growing, economic climate.

--Work to develop industrial part developments around the 16th Street and Campus Avenue area, the Cable Airport area, and the Mountain Avenue sector.

--Form a Downtown development committee to give assistance to the Downtown Merchants Association.

--Constructively implement the city general plan.

--Undertake advancement of area development in the areas of tourism, nearby ski resorts, recreation areas and "restaurant row."

A particular new program was outlined through which the Chamber will work with the disadvantaged in securing jobs and providing training. Working with the Department of Labor, the Chamber will seek to enlist the resources of private industry to provide job opportunities for those considered hard to employ because of race, physical handicap, educational handicap, etc.

Out of my mind

BY
JENNY KIRKPATRICK

Awake again

Thank goodness for the change of time back to its original status. I love the long daylight hours in the summer, but do hate losing that hour I sleep through the summer, only to recover in the fall.

Hats off

A doff of the hat to the League of Women Voters for preparing that long, long pro and con paper on the 20 ballot measures to be voted upon next month. The paper is very well done and should give the voting public enough information to vote intelligently.

An extra doff of the hat for also printing the material in Spanish. It is time we recognized that our Spanish speaking community members can think for themselves and need vital information as much as those of us who speak only English.

Elections

Speaking of elections, won't you be glad to have them over? There should be another way for politicians to get elected than by the painful method of using soap opera tactics. Don't you get sick of hearing leering politicians saying, "My Law and Order package has that extra ingredient, soft soap, we can deliver that extra punch better than politician X?"

Personalized license

How many of you have taken advantage of the personalized license plates at $25 plus. The plates are due to hit the roads and highways on November 1.

You can have your very own plate say things like ZAP. NOW, or use your astrological sign, a slogan, or your name, if it isn't too long. The proceeds from this state caper will go into a special state fund to aid in the demise of the pollution problem and to help protect California's environment.

Get a Card

Want to enjoy an exotic trip or learn how to cook a giraffe or fix your car, or discipline your children, or do anything or find anything from A to Z, then climb in the family wagon and head for the nearest library. The free cards are your passport to the world of every thing.

Bridging the gap

Student leaders of the La Verne area were guests of La Verne Rotarians Thursday in recognition of Rotary International's Youth Activities Week. Shown here, front, from left, are Bonita ASB officers: Scott Poindexter, senior class president; Barbara Caplin, ASB secretary; and Carrie Diebold, ASB treasurer. At back are Dr. Lyman M. Partridge, left who spoke on the Rotarian theme for the year, "Bridging the Gap"; and the club's president, Royce Stutzman. ASB officers from La Verne College and Damien High School were also guests at the luncheon, held at the Mountain Meadows Country Club.

'Gazebo' on stage at Castle Rock

DIAMOND BAR -- This Friday and Saturday, October 23 and 24, the Diamond Bar Players present "The Gazebo" at Castle Rock School. Curtain time is 8:15 p.m.

Under the professional direction of Gerald O'Connor, "The Gazebo" is the Diamond Bar Players' finest accomplishment. The play, boasts a set designed by Margot Andrews, who last year won the Valley Community Theater's VIcTor award for outstanding set design, and an excellent cast of new players.

"The Gazebo" is a fast paced mystery-comedy revolving around writer Elliott Nash (Tom Kyler) who is being blackmailed over an out of proportion problem his famous actress wife Nell (Cheryl Sanders) experienced.

Their best friend, a lawyer named Harlow (Ken Warn) sets out to solve the case, and a comedy of errors, missing bodies, and mistaken identities follows.

Featured in the cast are a couple of characters named The Dock (Marvin Colter) and Louie (Mike Allen) who will send you rolling in the aisles with their hoodlum antics.

Debbi Breno, Mary Ann Warn, Bill Mozley, Gene Ellis, Monte Sims and Sharon Kyler complete the cast and represent talent from six area communities.

This professional quality production plays again Oct. 30 and 31 at Lorbeer Junior High School. Tickets are only $1.75 for adults and 90 cents for juniors, with special rates for groups of ten or more.

Call 595-7690 evenings for information, reservations, or suggestions on how you can save up to 50 per cent of the admission price as a money-making project for organizations.

7,500 PANCAKES! That's the unofficial tally after the Upland Kiwanis Pancake breakfast Oct. 10 and 11 at Memorial Park. Sharing the honor (and work) were Chuck Dent, Frank Bonnet, Jim Davis, Don Dennis, Dick Price, Dale Genung, Jack Barnard and Orville Garrison. ..and many other Kiwanians.

SAN ANTONIO HEIGHTS homeowners, who had been threatened by the recent mountain fire, thanked the firefighters for protection. In turn the Ontario Fire Department thanked the homeowners. . .for cooperation, and for the food they provided. The Ontario Department also pointed with pride to the ability of the various fire-fighting jurisdictions to work together smoothly.

TWO FINE TEAS were held recently, one by the Assistance League in Upland for their Patronesses and the other by the San Antonio Community Hospital Auxiliary Silver Tea which featured bridal gowns worn from about 1916 to today. Both events proved highly successful.

WASN'T THAT A fine crowd that turned out for the donkey baseball game Sunday in Upland Memorial Park? Put on by the Firemen's Associations of Cucamonga, Alta Loma, Upland and Ontario, arrangements were handled by the Cucamonga group. Firemen boarding the bouncing beasts came from all four areas. The event was held to kick-off the campaign for a burn care center in the West End. Quite a sight, all those kids in fire helmets, big and little. A good day for a good cause.

DEWEY CABLE of Cable Airport, Upland, popped in early Monday morning all bright, chipper and excited about the forthcoming 25th anniversary . . .of his airport. Seems it was established in 1945. To commemorate the event he plans a big air show at the field climaxed by a banquet that evening at the Uplander Motor Inn. Sounds like something that shouldn't be missed.

ANCIL H. MORRIS, native of Missouri and resident of Cucamonga for 44 years, died Saturday at Loma Linda University Hospital. Mr. Morris was well-known in Cucamonga and environs as a Richfield Oil Distributor, charter member of the Cucamonga Lions Club, life member of the Cucamonga Service Club, board member of the Cucamonga Chamber and a member of Post 73, Upland American Legion. Services were held Wednesday at the Stone Funeral Home in Upland with Rev. J. Keith Whitford officiating.

LEST WE FORGET - This is the weekend to turn the clocks back. If, like me you get confused about which way to go at 2 a.m. Sunday morning, Oct. 25, just remember, "Spring forward in the Spring, fall back in the Fall", and set your clocks accordingly. And a happy extra hour to you too!

Pouches on Sundays

New mail movement

Last Sunday a new method of handling the mail began throughout many West End cities, including Upland, Cucamonga, Etiwanda, Alta Loma and Guasti.

The new system is aimed at reducing postal expense, according to information from the Upland and Cucamonga offices.

In the Cucamonga District, mail is picked up from Alta Loma, Cucamonga and Etiwanda post boxes and taken to the Cucamonga station where it is put in a pouch and sent to Pomona for sorting, stamping and forwarding. Guasti mail is handled through the Ontario office.

Upland mail is picked up from city post boxes, placed in a pouch at the Upland office and sent directly to Pomona for sorting and stamping.

The Pomona office has a machine which reads zip codes, sorts airmail from regular and second class mail and sorts sizes.

The new system will be in effect only on Sundays and holidays. Throughout the week all offices will sort and stamp their own pieces as usual.

The new means of moving the mail will allow smaller crews at all but the major mail center in Pomona. This, over a period of time, is expected to mean a definite cost reduction for the department, postal sources said.

Faulty lights

Are your dash lights out? Chances are your tail lights are too. Many manufacturers have equipped late model vehicles with a fusing system that connects the rear, stop and dash lights.

California Highway Patrol Commander D. R. Millican of San Bernardino reports that most motorists stopped for having inoperative rear lights are unaware of the problem.

When dashlights appear to be defective, the rear lights should be checked immediately for safety's sake

Beer Refreshes The Western Economy

In the Pacific Coast states of Washington, Oregon and California, the brewing industry pumps constant refreshment into the economic system. In 1969, for example, brewers in those three states made these economy-expanding expenditures:
- $35 million for agricultural products used in the brewing process.
- $90 million for packaging and container materials.
- $55 million for wages and salaries.
- $38 million for freight and shipping services.

As a dynamic part of the dynamic West, the brewing industry is a proud contributor to the economy.

Former priest ecology speaker

Former Catholic priest William H. DuBay will be the final speaker in the Chaffey College ecology series when he appears Thursday, Oct. 29, at 11 a.m.

He will be featured at a community convocation in the Earl Sicosky Gymnasium with the topic of "Drugs, Religion, and Consciousness Expansion."

Since leaving the priesthood in 1968, DuBay has served as a ranger-naturalist for the California Park System, a person preoccupied with conservation issues.

Prior to assuming his lay role, DuBay was a consultant for Synanon House and director of the VISTA Training Program in Los Angeles.

As a priest, he was a catlyric force in spurring controversy regarding the clergy's involvement in social change -- civil rights, integration and anti-war activities.

In this fourth convocation in the series, "Voices for Survival," DuBay will stress the efforts of the mind and spirit to make peace with the environment or at least compensate for the odds.

Previous speakers in the series were Roderick W. Nash, University of California at Santa Barbara; John Hessel, Stanford University, and Robert T. Neher, La Verne College.

Admission to the DuBay convocation is free.

Church news

Community Foursquare

UPLAND - Four years ago this month the Upland Community Foursquare Church at 8th and Campus, installed a Code-A-Phone. During this time there has been a response of over 45,000 calls.

"As we begin our fifth year, we invite you to dial 985-5110 and share the benefits of this service," the Rev. Vivian B. Twyford said this week.

The Code-A-Phone makes the church available to the public 24 hours a day. "If you would like spiritual help, assistance is as near as your telephone," she said.

Dial this number and you will hear an inspirational message from the Word of God given by the Pastor of the Church, Rev. Vivian B. Twyford, which is concluded with a prayer. At the close of the message there is an opportunity for the caller to speak his prayer request into the telephone. "Every request is prayed over by the church. Our Prayer Room is open daily and your request is placed there for prayer," Rev. Twyford said.

If you would like to begin your day with a short period of devotion, just dial 985-5110 before you start your work. If you would like to close your day with a message from God's Word, our Code-A-Phone ministry will meet this need. If you are tired and discouraged, burdened and perplexed, broken hearted or feeling you don't know which way to turn, just go to your telephone, dial 985-5110 and listen!

"We want to help you with your problem. You need not give your name unless you wish to contact us personally. We do want to be known as "A Church That Cares"

United Methodist

CUCAMONGA -- The United Methodist Church services will be handled Sunday by the youth of the congregation.

Heading the committee planning the morning worship service will be Joyce Lewis, Robin Billings, Sue Hardy and Sue Weaver.

Also on the program will be the presentation of a plaque to the young people who raised $800 to help finance the Pfeiffer Memorial Hospital build a new wing at its location in La Paz, Bolivia.

Volunteers honored

UPLAND - Seven volunteers from the West End Branch of the American Cancer Society's San Bernardino County Unit were honored at the organization's 23rd annual meeting, Sept. 29.

The volunteers received special recognition for their service to the ACS program in the local community. Attending from Upland was Mrs Thomas A. Gibson. Unable to attend from Upland was Mrs. Gerad Rawle.

Other volunteers who were unable to attend the meeting, but given recognition were: Miss Ada Cooper, Mrs. Ronald Gilbert and Mr. Lee Sherrard of Cucamonga; Mrs. Harold P. Custer and Mrs. Elmer Williams of Alta Loma.

The San Bernardino County Unit's annual report, distributed at the meeting, reported that 1,371 cancer patients in the county were saved a total of $258,000 last year because of free services, transportation and loans of equipment provided by the ACS service program.

The Public Education program reached 72,924 persons last year, including 34,860 students who saw special programs in the schools.

Copies of the annual report are available at the West End ACS office, 417 West 'E' Street in Ontario.

Upland Girl Scout branch office closed

Mrs. Joseph O. Axline, President of Spanish Trails Girl Scout Council has announced that "due to economic conditions, a portion of the council's many services to adult leaders must be curtailed."

"Operation of the three branch offices in Whittier, West Covina and Upland were suspended Oct. 15 and services such as the sale of badges, distribution of audio-visual equipment and printed materials will be handled through other means.

Professional field workers, formerly based in the branch offices will be headquartered at the main council office at 1550 N. Garey, Pomona, but will continue serving the 33 cities within the council's jurisdiction," Mrs. Axline said.

"The council purchased a 360-acre camp site in the Palomar Mountain area in San Diego County in October 1968," she continued. "Intent was to develop additional multi-purpose camping facilities for our 26,000 girls, with funds obtained through a scheduled Capital Campaign. To protect our investment in the newly acquired campsite, the Council was obligated to make a large payment on the land in June and this necessitated using monies that would be needed later in the year to ensure continuation of council operation. An emergency fund appeal to replace these funds was made to the council's membership during the summer months, but the results were less successful than anticipated. Therefore, the council must cut expenses at every possible source.

"Spanish Trails Girl Scout Council is making every effort during this interim to continue quality program for the girls although curtailing conveniences to our adults.

Southern California is working today for a better tomorrow

by providing ample electricity by

Electricity brings us light, conditions the air we breathe, keeps food fresh, and brings the world within our reach by radio and television.

In factories, electricity is essential to keep production lines rolling. Without it, there would be fewer jobs and less prosperity. On the farm, electricity pumps water to irrigate crops, and does everything from milking cows to coaxing chickens to lay more eggs. Fortunately, electricity is clean, flameless, odorless and doesn't create by-products of combustion at its point of use.

Everything man does has some effect on the environment, and the production and distribution of electricity are not exceptions. But if we failed to supply electricity for the factories, farms and homes in the 14-county area we serve in Central and Southern California, the impact on all our lives would be devastating. After all, electricity is one energy we cannot do without.

Two of our major goals are to continue to supply ample and reliable electricity and to work to improve the environment with relation to our generating plants and other facilities. We'd like to tell you how we do it.

Water was once the primary source of power used to spin the turbines that generated electricity for Central and Southern California. To trap the melting snows in the High Sierra, Edison created the vast Big Creek Hydroelectric Project. It meant opening up a mountain wilderness and building a network of dams and power plants. Today "Big Creek" provides electricity for hundreds of thousands of people.

It also provides a vacation paradise for the public to enjoy, including campgrounds, six major man-made lakes and streams well-stocked with trout.

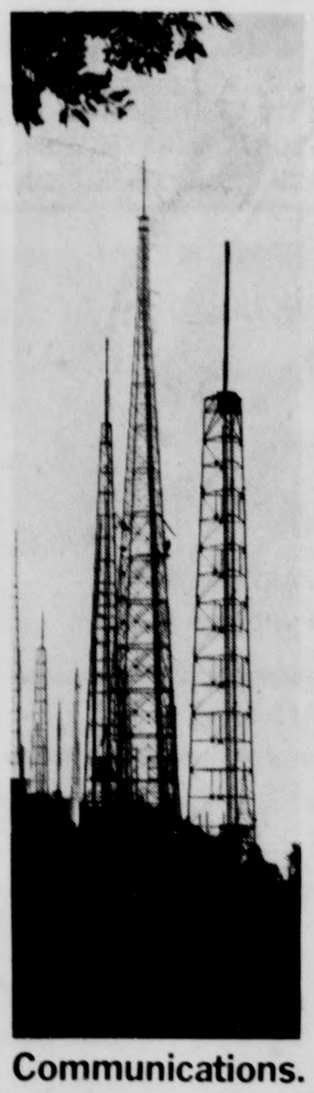

Moreover, "Big Creek" means flood control and irrigation water for the farmlands of the San Joaquin Valley below.

Through recent developments and application of pollution control techniques, emissions from Edison's fossil-fuel plants have been substantially reduced, including a significant reduction of nitrogen oxides.

a Edison
r
by helping to improve the environment

After most feasible hydroelectric sources for Edison customers had been tapped, Edison turned to fossil-fuel power plants as a primary source for the growing demand for electric energy.

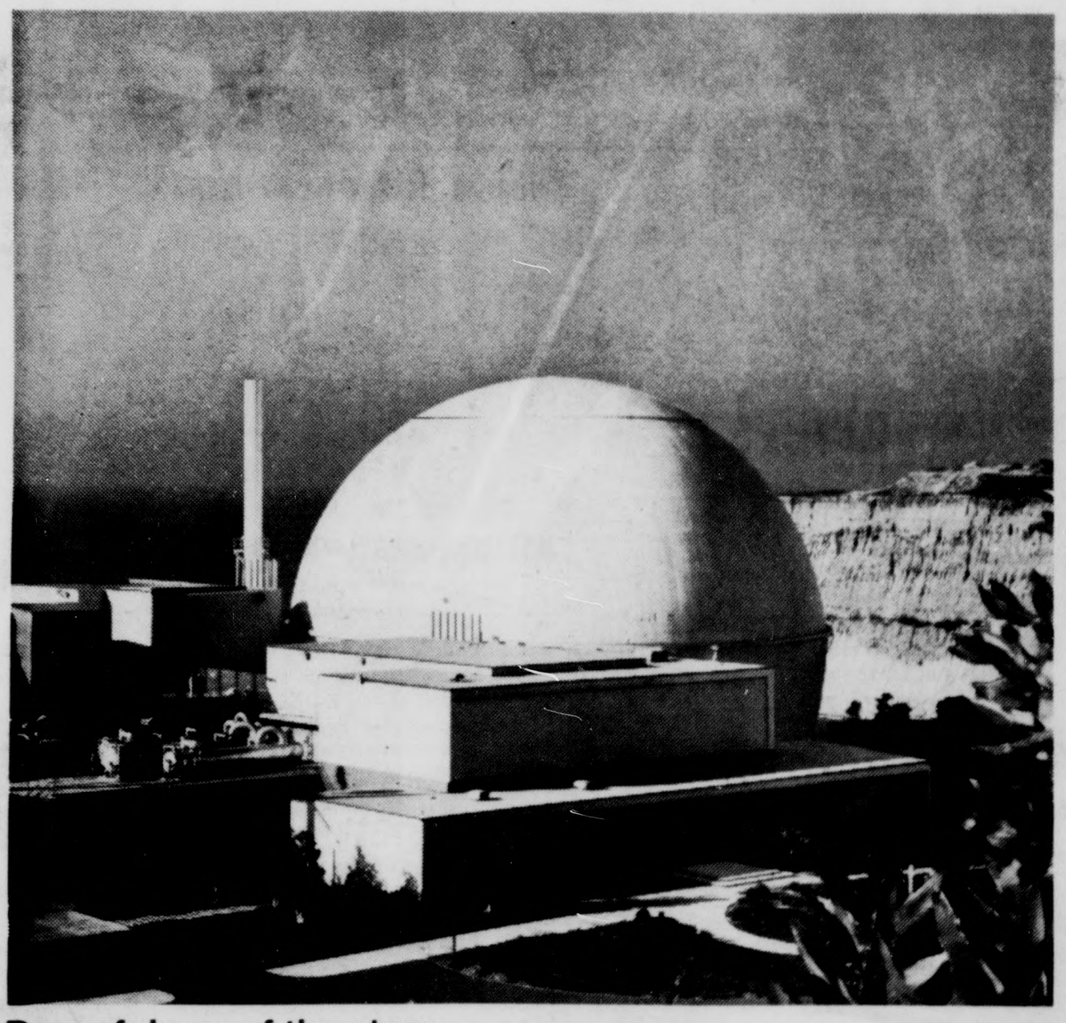

Power plants in Southern California have never been the major contributor to air pollution, but when fuel is burned in power plants, certain by-products of combustion are released into the atmosphere. This is true when burning gas or oil in power plants, gas in homes, or gasoline in autos.

Edison launched extensive air pollution research programs over 15 years ago. We were among the first companies in the nation to activate such programs. We were also the first utility in California to use a low-sulfur oil from Indonesia. It's costly, but it burns much cleaner.

We have succeeded in making significant reductions in emissions from our power plants. We are working to reduce them even further. One effective way, we believe, is to generate electricity at nuclear power plants. In a nuclear reactor there is no combustion, so there are no by-products of combustion.

Two additional nuclear units are scheduled for operation in 1976 and 1977 at the San Onofre Nuclear Station near San Clemente. Thereafter, the only major generating facilities Edison plans to build in Southern California's South Coast basin are nuclear units.

Peaceful use of the atom.
Nuclear generation of electricity has two distinct advantages. It is a clean source of electricity, and it helps conserve our natural resources. Above, San Onofre Nuclear Generating Station, near San Clemente. Two additional units are scheduled at this site. Although the plant is a source of a miniscule amount of radiation, the amount is far below the levels set by the AEC.

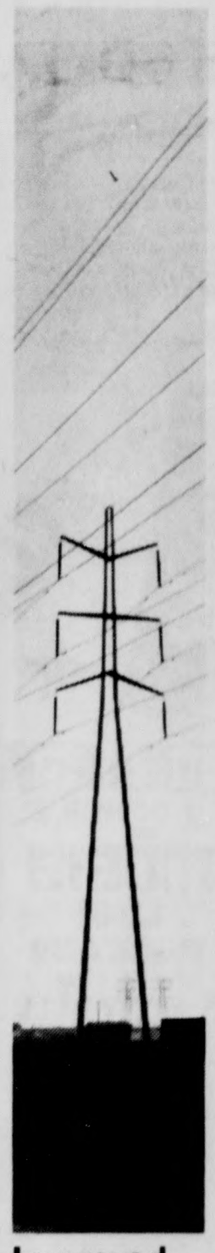

Cleaner-burning oil from Indonesia.
When Edison burns oil in its major fossil-fuel plants, a low-sulfur type is used. Edison was the first utility in California to use this cleaner-burning oil.

Ocean studies.
Marine biologist checks sea life near the San Onofre Nuclear Plant to determine if sea water, used to cool plant condensers affects the marine environment when the water is returned to the ocean. Nineteen surveys have revealed no adverse effects.

Beautified substations.
New substations, such as the Doheny Station above, are designed to blend with surrounding areas. Edison is also pursuing a program to beautify its older substations.

Improved designs.
Since there is no practical way at this time to underground high-voltage lines, Edison is attempting to make new transmission towers more attractive. Above, award-winning design by Henry Dreyfuss.

New parks.
Edison works with communities to enable them to use SCE's transmission line rights-of-way for the benefit of the public. Above, "Edison Trails Park" in the city of Monterey Park.

Burying lines.
Edison has expanded its continuing program to underground new and existing local low-voltage distribution lines.

"Fair market value" shall be determined as of the time of filing the final map in accordance with the following:

(a) The fair market value as determined by the City Council based upon the then assessed value, modified to equal market value in accordance with current practice of the county assessor; or

(b) If the subdivider objects to such evaluation he may, at his expense, obtain an appraisal of the property by a qualified real estate appraiser approved by the City, which appraisal may be accepted by the City Council if found reasonable; or

(c) The city and subdivider may agree as to the fair market value.

Sec. 34-136. Credit for Private Open Space.

Where private open space for park and recreation purposes is provided in a proposed subdivision and such space is to be privately owned and maintained by the future residents of the subdivision, such areas shall be credited against the requirement of dedication for park and recreation purposes, as set forth in Section 34-134, or the payment of fees in lieu thereof, as set forth in Section 34-135, provided the City Council finds it is in the public interest to do so, and that the following standards are met:

(a) That yards, court areas, setbacks and other open areas required to be maintained by the zoning and building regulations shall not be included in the computation of such private open space; and

(b) That the private ownership and maintenance of the open space is adequately provided for by written agreement; and

(c) That the use of the private open space is restricted for park and recreational purposes by recorded covenants which run with the land in favor of the future owners of property within the tract and which cannot be defeated or eliminated without the consent of the City Council; and

(d) That the proposed private open space is reasonably adaptable for use for park and recreational purposes, taking into consideration such factors as size, shape, topography, geology, access, and location of the private open space land; and

(e) That facilities proposed for the open space are in substantial accordance with the provisions of the recreational element of the general plan, and are approved by the City Council.

Sec. 34-137. Choice of Land or Fee.

(a) Procedure. The procedure for determining whether the subdivider is to dedicate land, pay a fee, or both, shall be as follows:

(1) Subdivider. At the time of filing a tentative tract map for approval, the owner of the property shall, as a part of such filing, indicate whether he desires to dedicate property for park and recreational purposes, or whether he desired to pay a fee in lieu thereof. If he desires to dedicate land for this purpose, he shall designate the area thereof on the tentative tract map as submitted.

(2) Action of City. At the time of the tentative tract map approval, the City Council shall determine as a part of such approval, whether to require a dedication of land within the subdivision, payment of a fee in lieu thereof, or a combination of both.

(3) Prerequisites for Approval of Final Map. Where dedication is required it shall be accomplished in accordance with the provisions of the Subdivision Map Act. Where fees are required the same shall be deposited with the City prior to the approval of the final tract map. Open space covenants for private park or recreational facilities shall be submitted to the City prior to approval of the final tract map and shall be recorded contemporaneously with the final tract map.

(b) Determination. Whether the City Council accepts land dedication or elects to require payment of a fee in lieu thereof, or a combination of both, shall be determined by consideration of the following:

(1) Recreational element of the City's general plan; and

(2) Topography, geology, access and location of land in the subdivision available for dedication; and

(3) Size and shape of the subdivision and land available for dedication.

The determination of the City Council as to whether land shall be dedicated, or whether a fee shall be charged, or a combination thereof, shall be final and conclusive. On subdivisions involving fifty (50) lots or less, only the payment of fees shall be required.

Sec. 34-138. Time of Commencement Must be Designated.

At the time the final tract map is approved the City Council shall designate the time when development of the park and recreational facilities shall be commenced.

Sec. 34-139. Limitation on Use of Land and Fees.

The land and fees received under this ordinance shall be used only for the purpose of providing park and recreational facilities to serve the subdivision for which received and the location of the land and amount of fees shall bear a reasonable relationship to the use of the park and recreational facilities by the future inhabitants of the subdivision.

SECTION 2. This ordinance shall take effect thirty (30) days after its final passage, and within fifteen (15) days after its passage, the City Clerk shall cause it to be published at least once in the San Dimas Press, a newspaper of general circulation printed and published in the City of San Dimas, and hereby designated for that purpose.

A Small Investment Makes For Good Living, Plus Ownership at

VILLA LA VERNE

McKEON APARTMENT HOMES

There's One Waiting For You!

It's not surprising.

Take a look at these beautiful 2-bedroom apartments yourself and you'll find it hard to believe that you can *buy* one for just $15,500.

To make it even easier to afford, you pay only $500 down and $121.58* a month.

That modest amount buys you an apartment with double-thick walls, and nobody above or below you.

It has a built-in electric kitchen.

Air- conditioning.

Wall-to-wall carpeting.

And your choice of decorator colors.

At Villa La Verne, you can enjoy all the benefits of home ownership and none of the drawbacks. You get to deduct taxes and interest from your income tax.

But you don't have to worry about exterior maintenance and gardening, because it's all done for you.

While you relax by the pool.

Each Manor House has four apartments, with garages for all and a laundry room.

You have your choice of four floor plans.

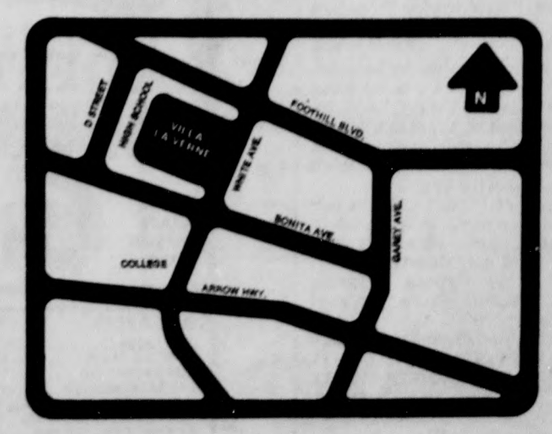

But you won't have that choice for long, the way they're selling now.

With everything they have going for them, it's not surprising they're going so fast. So better drive out right away, anytime between 10 a.m. and 6 p.m.

Coin operation goes up, up, away

The era of coin-operated parking at Ontario International Airport will soon be over, it was announced recently by Robert M. Hamilton Jr., airport manager.

According to Hamilton, the current parking system which requires a user to deposit two quarters into a machine to enter the lot will be converted to a method in which a parking stub will automatically be issued upon entering the lot, the parking fee being paid at a manned booth when leaving. The new system is expected to be operational by the end of November.

"The new system is like that used in most airports throughout the country and will be much more convenient for the motorist," Hamilton said. "The problem of having to come up with the correct change will be eliminated," he added.

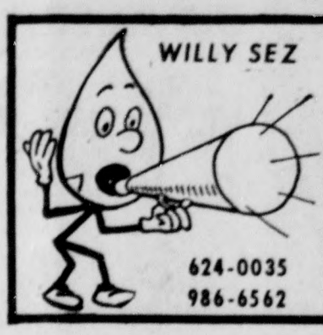

The new system will charge for parking on an hourly basis, rather than the flat rate of 50 cents currently in effect. The new rate will be 25 cents for the first half-hour and 50 cents for the period over one-half to three hours. Thereafter, the rate will be 25 cents for each additional three hours, or fraction thereof, to a maximum of $1.50 for a 24-hour period.

In other developments at Ontario International Airport, Hamilton reported the near completion of a 1000-foot extension of Terminal Way, the street that passes in front of the terminal. The new road will allow airport visitors to drive up to the recently completed 4000-square-foot American Air Lines passenger building east of the main airport terminal. All that remains of the $60,000 road extension is the installation of street lights. The new extension is expected to be officially opened by the end of the month.

Laird Paving Company of Claremont was named as the paving contractor.

WHEN TO SPRINKLE

Although the time of day is not particularly important, early morning is preferable to midday, when water evaporates rapidly, and evening, when the turf stays wet longer and becomes susceptible to fungus disease. After breakfast and two hours or so after lunch are other favorable sprinkling times.

Upland Savings pays the maximum interest on insured savings. No other insured financial institution in America can offer you higher interest or more insurance, because all insured financial institutions' interest and insurance are regulated by governmental regulations.

Upland Savings is a part of America's insured savings system whose total assets exceed $150,000,000,000.00 (150 billion dollars) and where, throughout America, over 44,000,000 (44 million) savers save.

As a savings counselor, we suggest you look at more than the *stated rate of yield* of investments. If you had needed to "cash-in" your investment before maturity this past year, you would sustain substantial losses. In 1969 only Upland Savings would have returned your investment plus high earnings.

BEAN BAKE

in a pepper shell

Pepper Bean Bake is one of the grandest family suppers we can imagine . . . and it comes to the teen party, too, as just the perfect kind of hearty, simple dish the youngsters love. Served with hot cornbread and Mexican Relish, chances are that it will become an all-time favorite in your cooking repertory.

Economical and easy to make, blanched green peppers are filled with canned beans in tomato sauce to which you add most lively ingredients . . . garlic, onion, catchup, mustard, molasses, and Tabasco pepper sauce, among others. Add sliced franks, too, and fill the peppers with the bean mixture. Split the end of a frankfurter lengthwise into quarters and insert in the center. Sprinkle with mellow Cheddar cheese, bake for little more than half an hour . . . and there you have a main dish the whole family will cheer.

The same seasoning goes into the Mexican Relish, too, to keep blandness at bay. It's a savory combination of chunks of avocado, tomatoes, and chopped onion and lemon juice. Mexican Relish is a versatile accompaniment that you can use with a variety of other dishes, too. It cheers up a simple roast or chops, adds a spirited touch to the delicate flavor of chicken.

Next time you make a quick family meal, give Pepper Bean Bake a test run with your family. It's bound to make the "just us" meal seem like a real treat.

6 medium green peppers
2 cans (1 pound each) baked beans in tomato sauce
½ cup shredded Cheddar cheese, divided
1 small clove garlic, minced
2 tablespoons chopped onion
3 tablespoons molasses
¼ cup catchup
1 teaspoon prepared mustard
2 teaspoons Worcestershire sauce
1 teaspoon soy sauce
¼ teaspoon Tabasco pepper sauce
6 frankfurters

Cut thin slice from stem end of green peppers; discard. Remove seeds and pith. If necessary, level peppers by cutting off a portion of the bottom. In large kettle cook peppers in boiling water to cover for 5 minutes; remove and drain. Combine beans, ¼ cup cheese and remaining ingredients except frankfurters. Cut 3 frankfurters into ¼-inch slices and add to bean mixture. Fill peppers with bean mixture; place in greased 8-inch square baking pan. Cut remaining 3 frankfurters in half. Starting at the end of each half, split the frankfurters almost to center, twice, to make four sections. Insert one frankfurter half into beans in center of each pepper, with split end extending about 1½ inches above beans. Sprinkle frankfurters and beans with remaining cheese. Bake in 375° F. oven for 35 to 40 minutes. Frankfurters will fan out to form "frankfurter flowers."

YIELD: 6 servings.

MEXICAN RELISH

1 large ripe avocado
2 ripe tomatoes, peeled and chopped
3 tablespoons finely chopped onion
¼ teaspoon salt
1 tablespoon lemon juice
½ teaspoon Tabasco pepper sauce

Cut avocado in half; peel and remove pit. Cut into small chunks and combine immediately with chopped tomato, onion, salt, lemon juice and Tabasco pepper sauce; mix well. If prepared ahead of serving time, place plastic film directly on surface of relish and refrigerate.

YIELD: About 2 cups.

HOORAY FOR CASSOULET!

A hearty Cassoulet is just the kind of sturdy dish a man enjoys . . . and youngsters, too. The family will find it a wonderful change of pace from lighter menus.

In the Cassoulet (pronounced cass-oolay), the bean reigns supreme. Use your favorite, navy or pea beans, and combine them with a variety of other splendid ingredients. It's a wonderful use for leftover beef, and the beans and beef combine with salami, salt pork, garlic and seasoning. Tabasco, the liquid red pepper seasoning, is noticeably among those present . . . it adds a beautifully zingy flavor to the whole.

The dish is eminently practical for a buffet supper, too. Serve it with the traditional accompaniments . . . hot crusty French bread (skip the garlic, there's enough in the Cassoulet) and tossed green salad. Do keep the dessert light . . . fresh fruit and cheese or scoops of lemon sherbet with berries would be just right.

1 pound dried navy or pea beans
6 cups water
¼ cup Grandma's West Indies Molasses
3 beef bouillon cubes
1 teaspoon salt
2 tablespoons Tabasco
1 teaspoon dry mustard
2 tablespoons chopped parsley
¼ pound salt pork, diced
2 cloves garlic
1 sprig celery leaves
1 bay leaf
3 cups leftover sliced beef
1 large onion, sliced
½ pound salami

Wash and pick over beans. Place in large kettle with all ingredients except beef, salami and onion. Bring to a boil and cook, covered 2 minutes. Stir and let stand 1 hour. Discard garlic, celery and bay leaf. Place half the beans in a heavy 4-quart casserole. Arrange beef in a layer on top of beans, then a layer of onion and a layer of salami. Add remaining beans with cooking liquid so that most of the meat is covered by the beans. Bake, covered, in 350° F oven 2 to 2½ hours or until beans are tender. If desired, remove cover during last 30 minutes to brown beans. Garnish with additional parsley.

YIELD: 8 to 10 servings.

Wildflower preserve a heritage saver

A major fund-raising campaign to establish a California Wildflower Preserve was announced by the California State Parks Foundation.

"Massed displays of wildflowers, especially poppies, are rapidly disappearing in our state, and they must be saved," declared Joseph M. Long, chairman of the California State Parks Foundation.

The concept of a wildflower preserve as a part of the State Park System has the support of many groups throughout the state who are interested in saving California's natural heritage, Long said.

A resolution making the wildflower preserve an official club project was passed at the statewide convention of the California Garden Clubs on September 2, according to state president Mrs. Henry Dolezal of Ripon.

Contributions are being sought from individuals, corporations, clubs, and other groups and will be used for the purchase of land in a 2400-acre site in Antelope Valley.

Those wishing to contribute toward the wildflower preserve may "buy" units of flower-bearing land and will receive a "deed" to the property.

For example, a gift of $2 will save one hundred square feet of wildflowers; $5 will set aside 300 square feet; while a gift of $100 saves a carpet of wildflowers measuring 7,000 square feet.

All gifts are tax deductible, and checks should be made payable to the California State Parks Foundation, 315 Montgomery St., San Francisco, 94104, with a notation that the gift is for "wildflowers."

PORTABLE COMBO CRIB

Heres' Why It's BEST:

- FLOOR SWINGS from crib to dressing table behind center — won't scar, dent floor. Locks up or down.
- FULLY FRAMED and riveted floor for strength — won't sag like unsupported floor.
- SAFETY LEG has positive locking pins and wing nut to prevent crib collapse. Don't rely on pressure of wing nuts alone.
- FLAT SPINDLES are wider, stronger, and protective, not round and wide-spaced like round spindles usually are.
- TWO INCH FOAM Sound-Odor Pad — more comfortable, smoother texture than other fabric materials.
- CRIB FOLDS with pad inside for carrying. Same as other fine cribs.

These Women Reduced with Pat Walker

Mrs. Christine House, Pasadena

For many years I had tried to lose weight, unsuccessfully. One day in a Pat Walker advertisement, I noticed that the girl featured in the photo was a friend of mine, whom I knew had a long-standing weight problem. I went to see her and was amazed at how great she looked. I figured that if Pat Walker could help my friend Nadine, she could help me. Only someone who has been overweight can understand the feeling of walking into a room knowing you look heavy. Since I began my program, I feel young again and have so much confidence. And most important, I am much slimmer and am still going down.

Mrs. Joyce Hood, Glendale

Recently I took a good look at myself and realized that the "few pounds" I had been putting on month after month had suddenly made me a very unattractive and bulging 176 pounds. I finally decided to go to Pat Walker's because I felt that an investment in beauty is the most imporant and rewarding investment a woman can make. The luxury of passive exercise with its resultant healthful increased circulation and complete body firming helped me achieve what nothing else in my entire life was able to accomplish. For the first time, I am wearing a size 12 dress, having lost 41 pounds.

Mrs. S. Froman, Northridge

Mrs. Froman said, "With the Pat Walker program pounds and inches have disappeared, especially from areas where I had trouble reducing in the past." Mrs. Froman reduced 3½ inches from her bust, 5 inches from her underbust, 6¼ inches from her waist, 8½ inches from her abdomen, 7½ inches from her hips, 4 inches from each thigh and 3½ inches from each upper arm. Mrs. Froman reduced from 151¼ pound size 15 to 115 pound size 7.

Mrs. Rhodes, Montclair

The most pleasant way to reduce which could be dreamed of . . . that's what I found at the Pat Walker Salon. I have gone from a size 52 to an unbelievable size 14! Although they kept accurate records, I really don't need to be shown the results. It's such fun to not be recognized by an old acquaintance and have to tell them who I am?

ISRAELI COASTAL PATROL . . . Police patrols of Israeli coasts are continuous, day and night. Each boat, equipped with a crew of six, are capable of a maximum speed of 25 knots. They are also equipped with radar and armed with light machine-guns. The two in the background are Arab fishermen.

The pressures are on children to succeed

Whether you realize it or not, subtle pressures are on the increase for your child to succeed in school and at almost anything he or she tries.

Pressures, however, are not all bad, according to a National Education Association (NEA) pamphlet, "Pressures on Children and Youth".

"The emotionally healthy individual finds ways to deal with conflicts as they arise and becomes more mature through each experience," the pamphlet says.

"It is when the pressures are too many or when they come before the child is able to cope with them that they result not in learning but in varying degrees of mental or physical disturbance."

Some common signs of too much pressure are listed by the pamphlet as temper tantrums, cheating in school, delinquent behavior, inability to study or total absorption in studies, sudden dullness or apathy, little response from child to friends, secretive behavior, unusual restlessness, agitation, poor eating, nail biting, twitching or stuttering.

While the pamphlet warns there is little parents can do to eliminate most of the pressures on children, hints to parents that can provide guidance include:

- Rather than retreating from the problem, or capitulation, help the child face it with some kind of action to reduce stress. Such an approach is consistent with sound mental health since it helps the child determine the most effective action for the circumstances.

- Let your child know that you care about his or her problems and are available and willing to help.

- Be a positive force in your child's life, not his or her major pressure point. Do not push children into social or educational experiences at too early an age.

- Teach children to live with limitations, since no one excels in everything and no one is perfect. A healthy attitude toward handicaps and strengths is most important.

- Children should have time that is theirs alone. They need time to think, dream, plan and make decisions.

- Help your children form good study habits as soon as they begin steady homework assignments.

- Parents should have a value system and ground children in good, ethical values at an early age. "Students who have cheated in school report a wish for more parental direction, firm rules, and guidance in determining right or wrong," the pamphlet points out.

- Teenagers should be encouraged to develop self-responsibility through such activities as volunteer community service, which provide cooperative rather than competitive activity, and useful and socially necessary work.

"Most young children desire to be 'good' - that is, to live up to the expectations of parents and teachers," the pamphlet points out.

"Many feel pressured when they find they cannot always achieve this goal. In the same vein, children feel pressured by the rigid physical discipline required in some schools," the pamphlet concludes.

Area Sports

For want of 12 inches defeat was his burden

Small but mighty

A distance of one foot kept Brian Brittain from becoming the area pass, punt, and kick champion.

Brian, 8-year-old son of Mr. and Mrs. Charles Brittain of 214 N. Abogado, Walnut, had won the local and zone titles and had gone on to compete in his age class at the area trials in Huntington Park last Saturday.

He won the pass and punt tests but was a foot short of winning the kick category. Scoring is based on an accumulated total of feet.

Last year, while not quite old enough to compete, Brian attempted the contest sponsored by Norman Ford in Pomona. He finished second. His older brother Dale had won the same competition three years ago and also failed at the area meet.

Brian's main sports interest is not in football, however. He wants to be a first baseman on a little league team. He was too young this year to join, but plans to play baseball next year.

Brian's brother taught him the skills necessary for the football skill contest and his mother says he is already practicing for next year.

(See Brian Brittain's winning form on page one.)

Want to see a rodeo?

Has your family ever seen a live championship rodeo? If not, they'll have an opportunity during "WELLS FARGO DAYS" on October 24 and 25 in Lucerne Valley in the high desert of San Bernardino County.

Fun and pageantry will be the order of the day as visitors and townspeople alike enjoy other events such as the Jubilee Trails Parade, a Gymkhana, a Western Dance and other interesting and pleasurable activities. Lucerne Valley is a little over 100 miles from downtown Los Angeles and may be reached by taking the Barstow Freeway (Interstate 15) North out of San Bernardino through Cajon Pass to the Bear Valley Cutoff, thence East to Lucerne Valley.

For more information contact the Lucerne Valley Chamber of Commerce, Lucerne Valley, Ca. 92356, phone (714) 248-7215.

Mighty surge

Bonita Bearcat Alan Carter (20) rounds end in a successful bid for a touchdown against Gary High Friday night. Carter accounted for 312 yards while scoring six touchdowns at Bonita's Homecoming game, which the Bearcats won by a score of 52-40

Group tickets available

The Associated Students at California State Polytechnic College, Pomona, announce the initiation of a group-ticket policy for all athletic events. The rates apply to community groups as well as to students. Twenty-five people may purchase tickets to any athletic event for $1.25 each, groups of 50 people for $1 each, and groups of 75 people for 75 cents.

Tickets are available from Jerry Miles, Assistant Athletic Director, and may be purchased for any or all Cal Poly athletic events, by calling (714) 595-1241 extension 622.

An Exceptional "Once Only" Offer for the purpose of putting YOU in...

Stein Bloch

CLOTHES

Stein Bloch Harris & Frank

Harris & Frank Will Pay You $50.00 When You Purchase A Stein Bloch Suit Between Now and November 7, Only

This unusual offer is not entirely altruistic. We have a reason as you will see. Please understand this is not a sale. Very few men wear Stein Bloch clothing for the simple reason that relatively few can afford to.

The price of a Stein Bloch Suit is $175.00.

Hundreds of men buy them at Harris & Frank each year at that price. They do this because no other suit so completely satisfies them, regardless of price. They want the elegance of Stein Bloch styling. The quality fabrics. The distinctive patterns. And the tailoring excellence which gives them perfect fit and comfort.

Once you have worn a Stein Bloch Suit you too will probably wear no other.
That is the reason for this offer:

All of our 30 stores have just received the new Fall Stein Bloch Suits. We have never seen a finer selection. So, from now, until November 7, only, we will pay you $50 when you purchase any Stein Bloch suit.

You may take your $50 as a reduction in the price of the suit—thus your Stein Bloch suit will cost you only $125 .

Now you can wear one of the world's finest suits paying no more than you would for an ordinary suit.

We know that once you've worn a Stein Bloch Suit you'll gladly pay $175 for your next one.

Special Note to our Regular Stein Bloch Customers: Of course this offer goes for you, too. If you have been planning to purchase your next Stein Bloch suit in the near future, you can save $50 by buying before November 7 — and get a great selection, too!

Tea for Mrs. Hawk

The Adult Leaders of the Bonita Girl Scout Neighborhood and the Adult Volunteers and staff from throughout the 33 cities of Spanish Trails Girl Scout Council, will attend a Farewell Tea honoring Mrs. Carson Hawk of San Dimas on Sunday, Oct. 25, at 3 p.m. The setting is the Johnstone Scout House in San Dimas. The Hawk family is moving to Sacramento as a result of transfer of place of employment.

Mrs. Hawk has been active in many capacities throughout her 18 years in Scouting having served as president of the San Dimas Girl Scout Association in 1957, the year the local area merged into the enlarged council, 6 years member of Board of Directors, 3 years District Chairman, 2 years Neighborhood chairman, leader of Senior troop, Trainer of Adult Volunteers, member of Service Team, the Speakers' Bureau, and a troop Organizer. Mrs. Albert Townsend and Mrs. Ronald Larson are in charge of arrangements for this function.

Cancer Society honors

MONTCLAIR - Volunteers from the West End Branch of the American Cancer Society's San Bernardino County Unit were honored at the organization's 23rd annual meeting in September.

The volunteers receiving special recognition from the City of Montclair were Mrs. Arthur Novelli, 14 year member, who was presented with a symbolic golden key ring; Mrs. Kenneth Overgaard for membership in the educational branch and the Montclair Police Belles for the successful residential campaign.

1,371 cancer patients in the county were saved a total of $258,000 last year because of free services, transportation and loans of equipment provided by the ACS service programs.

The Public Education program reached 72,924 persons last year, including 34,860 students who saw special programs in the schools.

Copies of the annual report are available in the West End Cancer office, 417 West E St., Ontario for any interested citizens.

Although the campaign was a success as a whole the City of Montclair again failed to make their goal, which was set at $6500, according to the population of the City. The total of $2754.49 was realized this year.

Use of Memorials for deceased persons is often forgotten.

A white and gold card is sent to the family of the deceased and one to the donor when a Memorial donation is made.

Mary Novelli asks, "What more beneficial way is there to say you truly care than with a lasting Memorial to further the research and study of this dread disease toward an eventual cure?"

What's Cooking?

A new concept in cooking has done away with conventional burners. The counterspace cooking approach--the most dramatic and practical kitchen development in years --brings the homemaker a smooth-topped Corning Counterange electric range with self-cleaning oven. It eliminates the need for cleaning grimy burners or coils because there are none. Electric heating units are concealed under a gleaming white cooktop surface of tough, easy-to-clean glass-ceramic which can double as counterspace when it is not used for cooking.

Included with each new Counterange is a set of Cookmates cookware with bottoms especially ground to take maximum advantage of the Counterange's preheating controls. The handsome Cookmates can also be used for serving, freezing and storing food.

"I REMEMBER" BY THE OLD TIMER

From J. E. Ritchie, Dayton, Ohio: I was raised back in the hills of old Kentucky where you had to look straight up to see the sun. But, I liked it, like the other animals born there. In the summertime it was beautiful, but it meant work and we boys were lazy. We enjoyed fishing, hunting, finding bee trees and harvest trees with little red berries that were delicious too eat. There was much to do in the country. In wintertime, we hunted 'possum, squirrels, rabbits and other game.

Of course, we all went to school from August to December and we walked about a mile. We enjoyed it. We would visit all the apple trees on the way and the persimmon trees. When we reached home, we would hurry up our chores so that when supper was over we could head for the molasses stir-off, when molasses making was in the process. We would take a stick of cane and dip the foam out of the evaporator and eat all we could hold. Before heading for home at bedtime we would gather the cane and lay it by the mill and the old mule would go round-and-round, grinding the cane juice from the cane.

Believe me, a city boy or girl never had the experiences I had in those mountains. I go back there now and I look up at those mountains and wonder how in the world we ever hoed the corn on those hillsides and how a mule managed to stick up there and pull a plow. You couldn't plow it all, for there was rock and roots — and scarce dirt — in many places.

RESCUE CRAFT . . . Artist's illustration shows rescue capabilities of Boeing's proposed Light Intratheater Transport, a tilt-wing aircraft capable of flying 1000 miles to a rescue site at 400 knots; searching for 30 minutes and hovering 30 minutes for rescue operations.

'Car snatchers' are professionals

Officer John York, auto theft investigator in the Sacramento Zone II headquarters of the California Highway Patrol, works in civilian garb in his detective activities. He and his fellow investigators are concerned primarily with commercial auto theft - "theft for profit".

York's confrontations are with professional criminals. He believes, however, that he has an advantage over the men on traffic patrol on the road. "We know who we're dealing with - felons!" York asserts. "But the beat officers make the lion's share of the arrests because of their many contacts. We investigators are supplied with leads from the officers in the field and from informants. After careful investigation, we make arrests.

"We have the advantage when making an arrest of knowing whether the suspect carries a gun, and we often know exactly where he carries it, or which drawer he keeps it in. And, we have another advantage: we take all the help we can get when making an arrest. We take city police, sheriff's deputies or FBI agents along. We often take uniformed beat officers with us. We take no chances.

"The man on the road, on the other hand, could be dealing with hardened criminals at any time and not know it. The officer who stops a truck for a missing tail light may be stopping a load of contraband. The patrolman never knows, when dealing with an auto thief, how many other crimes the driver has committed. He may be leaving the scene of a burglary or a murder."

York says the stolen car is often used to commit a crime, to get away, to travel, or for financing.

Recently, a commercial officer (a beat officer who specializes in enforcement of truck weight and loading laws) stopped a truck for a routine check. He weighed it and made his check of mechanical safety devices with the driver at his side.

A few months later the same driver and helper were arrested as part of a syndicate-directed cross-country vehicle theft ring. They told the arresting officer that they had a load of contraband beneath the tarp when they were stopped by the commercial officer earlier. They were professional criminals.

While the driver worked with the officer on the routine truck check, his helper had a gun trained on the unsuspecting Patrolman. The plan, the felons said, was to kill the officer if he discovered the stolen property of showed any curiosity about it.

Among non-traffic arrests made by the California Highway Patrol, auto theft outranks even narcotics in economic impact.

"Some people think of joy riders when they think of auto thieves," York states. "They think of juveniles. Actually, there is one adult auto thief - one real pro - for every 1.1 juveniles who steal a car. The typical auto thief is clever; he's not a punk stick-up artist; he uses his brain."

It's difficult to talk about narcotics arrests and auto theft arrests completely separately, because narcotics dealers are often also vehicle thieves. They may use auto theft as a means to get money to start their narcotics operations. Some auto thieves set up methadrine factories as part of their total criminal business.

Auto theft is the second ranking felony crime in the nation, in terms of monetary loss. It is topped only by larceny. In 1969, approximately 130,000 vehicles were stolen in California and 103,000 recovered.

The loss attributed to vehicle theft nationwide is about $800 million annually. By contrast, bank robberies amount to less than $20 million per year. In 1967, for instance, bank robberies totaled only $12 million but vehicles valued at $93 million were stolen and never recovered that year. When vehicles are recovered, they have often been stripped or so misued that the loss is great.

All types of vehicles are stolen. Although commercial rigs comprise only about 10% of the stolen vehicles in the state, they represent a major crime problem. About two or three trucks and trailers are stolen in this state each week. The engine of a big truck is worth about $6000 alone, so thieves sometimes take a torch to expensive new trucks and chop them up for salvage parts. Although this makes detection difficult, it is not impossible. Recently a nationwide truck theft ring was uncovered by CHP, FBI, National Auto Theft Bureau personnel and police departments in New York and New Jersey.

Motorcycles, increasingly popular with young Californians, are highly susceptible to theft and difficult to identify. The recovery rate for motorcycles, even counting joy riders, is only 25%.

Auto thieves use many methods, Investigator York reports. The repossession racket works like this: the thief finds out when a car is due to be repossessed and he steals it just before the man from the finance company or bank arrives to pick it up.

The owner, believing the car has been repossessed, does not report it stolen; the bank thinks the owner is holding out and doesn't report the theft. The thief has time to make a clean getaway.

Some auto theft rings tie in with pink slip (ownership certificate) rings. The salvage racket is big business, too; in this criminal game a stolen car is substituted for a wrecked one and sold, using the registration papers of the wrecked vehicle.

THE Highway Patrol utilizes a variety of methods in apprehending vehicle thieves. A Patrol helicopter was used early this year in two remote counties to photograph stripping operations from the air. CHP investigators work closely with police authorities throughout the state and in Oregon, Nevada and Mexico.

Day care here

WALNUT - ROWLAND HEIGHTS -- Phyllis Axberg, president of Valley Day Care Federation, has announced local Day Care Federation services in El Monte, La Puente, Hacienda Heights, Rowland Heights and Walnut.

When there is a demand for child care, parents may contact local representatives of the Federation to find a Day Care Home. Mrs. Axberg gives referrals for the areas mentioned above and she may be reached at 965-1164.

Federation members are conscientious child-oriented families who are licensed by county and state (no license fee is charged). Those who apply for a license have a background check, fingerprints, yearly chest x-rays, a personal interview, a fire inspection, and periodic visits during the year to see that standards are maintained.

It is unlawful to care for unrelated children in one's home without a license, and the Federation feels that their homes are exceptionally qualified licensed homes.

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) Should I make any change in my next estimated tax payment based on the expiration of the income tax surcharge in June?

A) No, although the surcharge expired June 30, the surcharge rate of 2 1/2 percent shown on the estimated form you filed earlier this year pertains to income for the entire year.

Any taxpayer who has not filed an estimated declaration and finds it necessary to do so now, should use the 2 1/2 percent rate for the surcharge. Forms and instructions for making estimated declarations are available at local IRS offices.

Q) When my divorce comes through will I still be able to claim a withholding exemption for my wife?

A) No, after your divorce you cannot claim her exemption. Make the necessary change in your withholding by filling out a new W-4, Withholding Exemption Certificate, and giving it to your employer.

Q) When my father died mother collected benefits from his life insurance, is that taxable?

A) If the benefits are paid in a lump sum they are usually not taxable. Benefits paid in installments, however, may be partly taxable to the extent they represent interest.

Details on insurance payments may be found in Publication 525, Taxable Income and Nontaxable Income. Send a postcard to your IRS district office for a free copy.

Q) I want to protest the disallowance of some deductions by the IRS Agent who audited my return. Do I have to make a written request or can I just come in and talk to someone?

A) You can ask for a district conference. If the amount of tax involved is not more than $2,500 for any one year, no formal written protest is required to obtain a district conference. This provides you the opportunity to present your side of the dispute to an impartial third party.

Q) I want to clear out some of my old bank records, check stubs, cancelled bills and the like. Is there any need to keep some of them for tax purposes.

A) As a general rule, the IRS may assess additional tax or you may claim a refund within three years of the due date of a return. Therefore, any record you might need to support an item listed on your return should be kept at least three years.

Naturally you will keep some records longer. For example, records on the purchase of a home or the acquisition of stock should be kept longer.

A carload of money that shouldn't, leaves California every day.

You—and Proposition 10—can do something about it.

Hundreds of millions of dollars will leave California this year—never to return. Hundreds of millions more that should come in will go out instead to 45 other states with more modern laws. About ¾ of a billion dollars in all that should be spent here for new construction—generating thousands of new jobs.

Why?

Because large business loans can earn far more interest in almost every other state in the nation. That's why New York passed a law like Proposition 10 way back in 1850.

Proposition 10 will put an end to this money drain. And do it without costing you a penny or affecting the interest *you* pay in any way. (In fact, it might even lower it in the long run.)

How can Proposition 10 guarantee this?

Because it only applies to loans over $100,000, made to corporations and partnerships. The kind of loans so vital to the construction industry.

The State Legislature passed Proposition 10 unanimously and Governor Reagan signed it. Former Governor Brown supports it. So do business and labor unions. But their endorsement can't make it law without your YES.

Your YES on 10 November 3rd will keep California money here, where it'll do the most good.

Paid for by Californians for Yes on 10.
State Chairman: Art Linkletter
Vice Chairmen: Hon. Tom Bradley, Hon. Edmund G. "Pat" Brown, Roger Kent, Gordon C. Luce, Mrs. Irene Parsons Mann.

For more jobs!
Vote YES on 10.
